What we'll do together

In six months, your life will look different! These are the steps we'll take together:

1. Our work will begin with an Assessment

The assessment will evaluate current status of body, mind, emotions and spirit to determine what is working for you, what elements are static, and which are blocking. We'll do that through mental, emotional, and spiritual assessments, utilizing certifications in Neuro-linguistic programming as well as experience and certification as a certified life and executive coach.

2. Then we start working to Clear the Blocks

We'll figure out what is holding you back and then develop the action plan to move forward. The areas we'll focus on include:

- Understanding yourself and your life purpose
- Your values and strengths
- Current vision and dreams
- Existing strategies
- Watch your mouth: what language are you using?
- Building the vision you choose
- How to create it

3. Action Plan

The strategies and tools we find effective in not only clearing your blocks but in moving you to the next step will form your Action Plan. You'll also develop a ToolKit (Template of Alignment) for continued growth and support.

We'll meet via Skype, or if prearranged, in person 2 times per month for 1 hour. You'll be supported in between those sessions via email.

The reflection and action steps you'll be taking will catapult you forward. At the end of our six months together you will have

- an awareness of what was formerly holding you back
- how to move past those blocks
- strategies to move through habitual patterns that stall you
- knowledge of your values, strengths, and purpose
- confidence in your direction
- an action plan
- a Toolkit of resources to support you

Life is about integration. We aren't work and we aren't just leisure. We are everything in our life. Who and what we are needs to combine to represent us. That's living in integrity, and that comes from living in clarity.
